FOR CONGRESS. For District Judge DAVID MARTIN

### THE JUDICIAL CONVENTION.

The Judicial Convention at Hinwatha, last sday, resulted in the nomination of David fartin, of Atchison, for Judge, on the 26th bul-The candidates voted for were Martin, of Atchison; Perry, of Doniphan; Wells, of Nemaha ering vote or two for Webb, of Atchison first to last : Brown was not earnestly for sign was right to do what they had preditated from the first, and gave Martin enough

Mr. Martin is an honest and upright man, and m able lawyer, and will receive the full Repuban vote of Doniphan County. Of course, we efer to the regular Republicans, as we have no thority to speak for the little squad of spite ellows. If they see that the "Ring" are supting Martin, they will be apt to find an oppon candidate to vote for.

We are not at all disappointed at the result r it was what we anticipated all along. Ten ays before the Convention, we told Mr. Perry at Mr. Martin would be nominated by the a may at that time have protested that they would ver go with Atchison. We called his attention o the fact that they always had done so hereto re, and had never favored Doniphan County We told him that even if leading and influential en of Brown had promised to favor him, they uld get out of it, by having a man of their e on the track, and claiming that they elt under obligations to support him, and would as fixed to beat the Doniphan County caudiigines that Brown County had a candidate in nest, and that her delegates did not contem late from the beginning going with Atchise ounty, after a proper amount of make believe be easily fooled by very thin appear nices. But some people may be unable to see the Brown County withheld all aid from Nemaa County, with which their interests seemed to e identical. They are linked together for Senorial purposes, and Brown has always received the lien's share of that honor in the District, es ecially in years when the Senatorship was of usual importance. Yet Nemaha got no aid or enfort from them. To fally account for the nilk in that cocoanut, it is only necessary to refer to the fact, that in the recent Congression ntest, Nemaha acted according to the senti ent of her people, and refused to tumble to the ness got up for the especial reenge of Senator Ingalls and Col. Phillips.

the Judgeship, was the issue that was sprung and harped upon, that Doniphan County, and Mr erry, had started the bolt, four years ago, gainst Judge Hubbard, and deserved no reward Martin, one of the leading men in opposing Hubrd. Perhaps the most bitter man in Doniphan mty against Judge Hubbard, was J. P. John on. He paid no attention, that year, to any other feature of politics than the anti-Hubbare art. He is made Chairman of the Judicial Disiriet Committee. After appointing a member t large was appointed. What the need of such member is, except to give Brown County double mittee; and why she is entitled o such consideration, over the other Counties s not quite clear; but that member is C. W ohnson, who was a monomaniac in his opposi ion to Hubbard. He did not sleep during that ampaign; never did anything but write, speak and work against Hubbard, spreading himself re District, and writing enough for he press to fill many large volumes. Making an ne against Doniphan County and Mr. Perry on that old Hubbard affair, which should have en exhausted long ago, and then taking the cends below the ridiculous,

ed on the Hubbard question? This issue was ande principally by his adherents. At the time ted on both sides, and both sides had son to claim him, if they took his own ex-

he County Attorneys of this State, held at Toocka, T. W. Heatley, of this County, was Chairsn of the Committee on "Criminal Procedur and Costs in Criminal Cases," and as such, made itled to any other Committee, and which re ort, upon every question, was approved and iso appointed Chairman of a joint Committee and also the County Attorneys, to draft a law to presented to the Legislature, next winter, podying amendments to the present Statutes o as to make the County liable for officers' and ess' costs, in certain cases where no one i ow responsible therefor.

NEWSPAPER ENTERPHISE.-Age doesn't dul he energies of a newspaper. The Cincinnat tte, the oldest paper in the West, has struck streak of enterprise which promises to put it ir ahead of any of its cotemporaries. It recently had a telegraph line stretched m Washington to Cincinnati, for it own ex e use, in receiving news—a luxury indulge by but one other newspaper in the United ne of its daily, containing all the general and scal news of any consequence, thus placing i nen out this way sometimes think the Gazette is injust in its opposition to our favorite, but on ough and through.

ek, makes it look as if there would be noseed, this week. It embraces names of John W. Forney, General Pearson, ter Palmer, L. S. Kalloch, and Patrick H.

The editor of the Hiawatha Disputch has them. the worst kind-indeed, the whole crowd that operated with him in the late primaries, are similarly afflicted. The last issue of the Dipatch is Domphan County Republican ever known to almost wholly devoted to the foulest abuse of give aid or encouragement to the sore-head out-Douiphan County Republicans—and why? Be-cause the editor of the Disputch, Mr. Webb, and abuse the "Hiawatha Ring," or send emifew others, set up a nice little game to carry Doniphan County by stealth, and slipped up or it badly. Because Doniphan County elected delegates in favor of one of its own citizens, the oldest lawyer in the County, for Judge, and for an able, pure and sound Republican for Congress And Mr. Webb, after failing to carry a single delegate in his own County, or a single delegate had the cheek to go around and drum up all his would-be delegates from this County, and all his supes and understrappers, to get up a contest! Upon what grounds, he himself did not know, and so he did not try it, after mustering them at Hiawatha. As, in mashing a skunk, you only Disputch, in his badly flattened condition, can still emit his stink upon the Republicans of Don-iphan County. After the last issue of the Dis-patch, let it hold its peace about the vulgarity and obscenity of the Chief. The Chief subn gracefully. But mixed with his stink, are about s many able-bodied lies as can be crowded into

that amount of perfume. not counted at the precincts, but that the ballot-boxes are sent in, to be fixed up just as Cy. Leand finds necessary. Not a ballot-box was sen in, but the returns were sent, in every case where sent at all, by the proper persons. In one case, if not two, no returns were sent from pre-cincts where the Anderson ticket received good So that any delinquencies in that ine operated in favor of the Dispatch's ticket, instead of against it. Cy. Leland was not even esent at the counting out of Troy precinct Mr. Hampson, one of the Dispatch's candidates or delegate, assisted, and kept the tally list If he found anything wrong with it, we have not heard of it. Troy precinct alone gave from 10 to 15 more majority for the Anderson and Perry ticket than all the opposition precincts combin ed gave the other way. So that the delegates ame way had made any return. It is not claimed that more than one illegal vote was east here, and that by a Democrat; but we personally saw a emocrat cast a vote for the other ticket, so that t is a set-off, and that mare's nest is exploded.

Another charge is, that no lists of voters were cept, thus giving an opportunity for frauds. Lists were kept at every precinct but Troy; and whose fault was it that a list was not kept here? At the opening of the polls, one of the Dispatch rowd came up blowing, and demanding that this out the McGuffer series. There is something me fair, and that there be clerks, to keen a list of voters. He was at once appointed clerk, and given pen, ink and paper, to write on lively, each name being announced to him, number were in. Then he threw down his pen, and went out. When the next vote was offered, me of the judges went to write the name, when se discovered that the former clerk had written just two sames! A messenger was sent out to look him up, when he was found drunk and other heavy effort was made with the same series, sleep, in an out-house in the rear of a saloon! sained there, in that condition, until after dark. This was why there was no list of every few years since, a similar effort has bee 'whiskey-straights" come in. But as Mr. Hampson watched the ballot-box, and assisted in unting the vote, if he had discovered any great fraud, we presume he would not have kept it to is the Appletons' series. The author of the Me timself, especially as he was among those taken | Guffey series was Rev. A. H. McGuffey, a Presbyto Hiawatha, to assist in the "contest,"

By the way, the Dispatch'e slur upon the "whis ey-straights," was a sorry return to the Leons aloon-keepers and certain whiskey men at Wasena, Troy, Severance, and other places, who corked with all their might for its ticket. The only worker on that day, in the County, who was o drunk he had to be hauled home, was for the Dispatch's ticket. The only man who enjoyed a runken sleep in a saloon privy, was of the same side. The only drunken men at the Troy polls, that days were ditte. "Whiskey-straights," in-Who furnished the money for them to buy whiskey with! Nearly all of them are con-

Another "not so" is, that the Chief was kept back so that due notice could not be given to the oters. The Dispatch knows very well that the Chief was badly behind time for several weeks previous, and was trying hard to get out on time, and did not sneeed until a week after the prima-It was got to subno occasion to abuse the Central Committee for it. Besides, the voters knew when the election was to be, all the same, if the Chief didn't reach them in time. No one lost his vote on that ac-

Another lie is, that the Chief denounced as ore-heads all who voted the opposition ticket. The Chief did no such thing, nor said anyhing that could be so construed, except by one determined to misrepresent. The Chief distinctsaid, that while some good Republicans alowed themselves to be worked into the movement, all the sour, the sore-heads, and the disap ointed, were into it, and were the hardest workers in dramming out voters. The Disputch menons some men by name, asking if they are sorebeads? Some of the men so mentioned, are not to their position in the alphabet, the letters only sore-heads, but are sore at both ends, and were got into the work for that express reason, knowing that they would work the harder to stir up strife in the party. The Disputch wants make the exact number of the electoral college to know if Rev. S. M. Irvin is a sore-head. No; About the only sign that will fail, in Hancock' but he is regarded in this County as a Democrat, who occasionally votes a Republican ticket, or election. ice that they will make an effort for the part of one, when it suits him-but it hardly ever suits him. "Is B. S. Campbell a sore-head?" asks the Disputch. If he is not, we would like to see one. He has devoted his energies, for ears, to trying to beat Republican tickets-County, District, and Township-and swears that he is determined to do it, if he has to join the Democrats to accomplish it. Oh, no, he is not a sore-head! The few Republicans who have been following him, are beginning to discover where he is leading them to. J. P. Johnson was delegate on the Perry ticket. Did they vote against him for having Mrs. Herrick turned out post-office? And since that post-office natter has been rung in, it may be as well to out, but B. S. Campbell; for besides being locat- at all, may not be clear to the ordinary observer ed to the disadvantage of the business men of the town, it was pretty generally thought that it was run for the interest of Campbell, who used it as a part of the machinery for fighting the Resublican party. B. S. Campbell is not a soldier's widow; and remembering that he made trips to Washington for the purpose of depriving Mrs. Herrick of her pension, and succeeded, it comes with a bad grace from that crowd to whine about arning a soldier's widow out of the post-office.

Ie tried to deprive her of the post-office, at the me time that he robbed her of her pension; and she was retained only through the influence not willing the office should be used by him to eat the Republican party. So much for that. And we are authorized by Mr. Leland to say that he never made any such threat to Mr. Anderson, as charged by the Disputch, relative to the re noval of Mrs. Herrick, or any other post master. Another "no such thing" is, that Severance gave 13 majority for the Webb ticket. It gave 13 majority the other way, although several whiskey men as well as several temperance me did all the hard work the other way.

Any man has a right to do what he can to get delegates; but a man calling himself a Republian, hardly has an honorable right to stir up very element that has always striven to divide and to infuse new life into such elements, in or der to secure delegates to give him a Republican on. That party, by secret and persist sed out about everything that sald be got out to vote their ticket, while the other side made no effort. Out of over 1500 Re publican voters in the County, they could not unster 300 on a square, open issue; for many roters, who can be boodwinked into a scheme, onld not touch it upon an open issue, when the mestion was understood. They can succeed ocally, in defeating a Republican candidate, y voting with the Democrats; but it is only or

Brown County has always opposed this Cour ty. If Doniphan County ever got any political help from Brown, we have forgotten it. It is fair to presume that the Dispatch, in its vile abuse of a majority of the Republicans of this County, reflects the private sentiments of the owers that be. In fact, some of the politicians of Brown were heard to express sim ments, long before the Disparch published them. Let us compare this treatment of the Doniphan County Republicans, with Doniphan's treatment of that County. It is well known that, for some years past, a "sore-head" element has existed in Brown County, precisely similar to the one in this County: but in Brown they almost succeed-his em

zed some of the Best County officer The stock in trade of that sore-headed element was the "Hiawatha Ring," just as it is the "Troy Ring" in this County. In all those years, was a Doniphen County Republican ever known to fit! Did a Doniphan County Republican ever o stir up the opposition to run a ticket, or blackguard the regular Republicans because they won a victory! Every County must have leading men, to head and keep alive the party organization. Did the Chief ever abuse the leadin Republicans of Brown for doing all in their power to circumvent the disorganizers? The Chief as many subscribers in Brown, and every one of those subscribers will bear t every election, we have taken an active interest and urged Republicans to stick to the regula ticket. Two years ago, Doniphan County had a candidate for Congress, who was desirous of sup-port in Brown, which he did not get, of course. Did he or his friends undertake it by organizing secret ticket, and denouncing the leading Reblicans of the County! On other occ hey have wanted help from Brown, (which it is edless to say they didn't get,) but who ever against the allied powers of Democrats, Green

ard of them organizing the sore-heads of that County in order to accomplish it! As late as last Fall, when it was almost a life and death ackers, sore-heads and bolters, an application was made to the Chief for documents to be used against the editor of the Disputch, as a part of the fight, did we furnish them? On the contra-ry, we said all we could in favor of the straight have received payment in full, from the Dispatch and from individual Republicans. It is reaso able to presume, that if Brown County Republi cans hereafter want help from Doniphan, the will give a wide berth to the infamous crowd honest and stalwart outfit whose assistance they had in the late primaries.

Finally, wouldn't it be just about as well for the editor of the Dispatch to attend to its own County, and let Doniphan County Republic run their own machine. He has tried hard to run the County, both while a citizen of it and were elected, if not another precinct voting the since he has left, and always made a miserable

School Book War. "Every once in a while," a fierce school book war breaks out in some community, growing out of an attempt of some school book publishin firm to crowd out the books used in the public schools, and put their own in their place. St. Joe is the happy place now enjoying this recreation. In nearly every case, the effort is to run about these McGnffey books, merit, superstition, association, or what not, that gives them a wor otion. Daboll, Dilworth, Pike's Arithmetic, Talbot's Kirkham's Grammar, and many other books slid out without scarcely being no ticed. McGuffey's books have been in use now for nearly fifty years. The first heavy effort to replace them with others, was made in 1846, with the Sanders series. Again, in 1849-50, anand regularly salaried agents were sent through made with other books. But the Sanders books, besides many others since, have long ago given up the fight, while McGuffey still sticks, to withstand the assaults of new recruits. This time, it terian Professor in an Ohio college.

recently narrowly escaped martyrdom for rightness sake. His home is in Blue Rapids, an ultra temperance town. There is a druggist named Conlter in the town, who doesn't train with the elect, and a few score of the citizens him, to detect him selling liquor. A few days the Trace booms, since, they thought they had the "dead wood" on him, and he was hauled up. A lawyer of the place was prosecuting, and doubtless was showing up Coulter to be a murderer, robber, outlaw. and all that sort of thing, while Campbell wa encouraging the prosecution with his smiles, and epared to gloat over the victim of the trap he felling the lawyer to the floor, then sending tween Perry and the Rice family. others probably prevented the census roll of Marshall County from being reduced to the number of two. As it was, Campbell and the lawyer found it necessary to repose for a few days in says that the assault was made without the slightest provocation on the part of Campbell or the lawyer. That may go down with some pec ple, but it is too thin for general consumption

The heavens and earth are full of signs l omens pointing to the election of Hancock, and the Democratic papers are discovering them It is discovered that the man with N in his name is always successful, (such names as Clinton Fremont, and McClellan, don't count); and it is found that by taking all the letters according forming Hancock's name represent a given num ber of Electoral votes, and those in Garfield's name, a smaller number, and that the two sums About the only sign that will fail, in Hancock's case, will be the tally-sheets at the November

That man, R. W. P. Muse, must either be fellow of appalling cheek, or South-Western Kansas is lamentably destitute of timber fit for office. Four years ago, Muse was a Presidential Elector; this year he is again a candidate for Elector, and was an alternate delegate to Chicago; and now we see that he is likely to be commated from the State Senate for his District. But if he wants everything, and the people are willing he shall have it, just consider that we are not complaining.

The Atchison Globe is in a bad state of health over the way in which Cy, Leland runs Doniphan County. Just how it concerns the Globe who runs this County, or whether it is run but there is hardly room for doubt that the Globe loses a large amount both of money and sleep by the way in which Doniphan County is

17 Things are not as harmonious between th Democrats and Greenbackers as they used to be, has failed; and in Indiana, the Democrats hav refused to endorse the fraud, De La Matyr, for Congress in the Indianapolis District, but have nominated a candidate of their own. This, in turn, will lose many Greenback votes to th

Democratic candidate for Governor. The fact that all the Counties which are electing delegates to the State Convention in advance of the time fixed by the call of the Comtee, are electing St. John delegates, show that they had the thing fixed up, and are takin snap judgment, fearing to risk their chances a time when it is generally understood that de egates are to be chosen.

tr The Democrats recently tore down and de troyed an American flag, at Albany, Mo. The Democratic papers are trying to prove that the wind did it. It amounts to about the same thing. The Democratic campaign, thus far, has been al

17 Testimonials to Hop Bitters and St. Jacob Oil, and endorsements of Gen. Hancock, are mixed together in the Lawrence Standard, that i is sometimes difficult to distinguish them apart They all look alike, and read very much alike. IP There is a great demand throughout the country for a change in the Administration of the Government. But the demand all comes from the Democratic party. Lots of other people would

do the same thing, in their place. 13 We were on the point of scratching th Topeka Commonwealth from our exchange when we came upon an article in the paper rela tive to Sara Bernhardt, and our ser arrested. But it was a narrow escape.

TF The Kansas Greenbackers met at Topeka the other day, and nominated a State ticket Greenbackers! What new-fangled party is that We don't remember of ever hearing of such s party before.

IF If the election could be held and com early in the morning, the Democrats would be successful. Everybody has a strong Hancoc feeling when he first gets up in the morning, it soon wears off.
